

LDL TECHNOLOGY Corporate Social Responsibility (CSR) awarded

LDL TECHNOLOGY has been awarded with the Gold medal by the independent expert body EcoVadis.

This is a strong reconnaissance for LDL TECHNOLOGY of its commitments and concrete actions set up within the frame of its Corporate Social Responsibility (CSR).

LDL TECHNOLOGY particularly stands out in business ethics and social & human rights, placing the company in the **TOP 5% of the 50 000 companies assessed by EcoVadis.**

EcoVadis is the first worldwide independent platform providing to companies a global CSR rating, based on scores reflecting the company performances on 4 SCR topics : environment, social & human rights, business ethics and sustainable procurement.

EcoVadis Assessment method is based on 4 founding principles :

- Integration of pertinent CSR criterias based on international standards (Global Reporting Initiative, Global Pact of the United Nations, ISO 26 000 standard)
- Verification and analysis of informations by independent experts of the platform
- Follow-up and comparison of 21 indicators with companies in the same business sector
- Improvement axis and advices to improve companies approach and impacts

Since its creation in 2007, more than 50 000 companies in 190 business sectors have been assessed by 150 EcoVadis experts.
